Subject: Butta B Rocka Recommendation

To Whoever it May Concern:

As a frequent guest at the Sheraton in Addis, I have enjoyed going to 'The Office Bar' these last 3 months, where four times a week, Addis residents get a taste of the Atlanta music flavor by the Celebration Club Band. It was clear from the word go that Butta was a different kind of musician. As a performer, she owns the music and commands the stage. She woees the crowd with her dance moves and combines her dancing abilities with an uncanny vocal mastery. She does both with ease and with professionalism. As a musician, she connects with the crowd on every note. Whether singing on stage or singing while mingling with the crowd, she has the ability to connect with and communicate with the audience in a way few musicians can.

After a long day of work, an evening of live music at "The Office Bar" makes for a perfect end of day and I am thankful to Butta for turning us into regular guests day after day.

Sincerely,
